Hosea Varghese Kalayil

Senior Full-Stack Engineer | hoseakalayil@gmail.com | GitHub | LinkedIn | Portfolio

Summary

Senior Full-Stack Engineer with 5 years of experience designing scalable web platforms, cloud-native architectures, enterprise integrations, and AI-assisted applications across retail, healthcare, and SaaS domains. Experienced in technical leadership, system design, and full-stack development using React, Node.js, AWS, and Azure. Proven track record of leading cross-functional teams and delivering business-critical solutions from architecture through production.

Experience

Litmus7 – Senior Software Engineer | Oct 2025 – Present

Senior API Developer - Myer

- Developed and maintained backend microservices and enterprise integrations using AWS services and IBM WebSphere Commerce (WCS).
- Designed and enhanced cloud-native ETL workflows orchestrated through AWS Step Functions, integrating EventBridge, DMS, RDS, and Glue to support large-scale retail data processing.
- Built and maintained AWS Lambda services supporting critical e-commerce and retail business workflows.
- Collaborated with architects, business stakeholders, and cross-functional engineering teams to deliver reliable and scalable backend solutions.

Full stack developer - iPaaS

- Developed full-stack features using Next.js, designing both frontend applications and backend APIs for integration-focused workflows.
- Refactored a complex file-processing framework using Dependency Injection and Strategy patterns, improving maintainability, extensibility, and long-term architectural flexibility.
- Contributed to application architecture decisions, engineering standards, and feature delivery across the platform.

Additional Contributions

- Conducted Level 1 technical interviews as part of the Talent Acquisition process.
- Achieved VTEX certification through internal training programs.

Tata Consultancy Services (TCS) – Full-Stack Developer | Oct 2021 – Sept 2025

React Lead Developer – Uniting

- Developed reusable and accessible React components using React, Vite, TailwindCSS, and MUI within a large enterprise frontend team.
- Collaborated with frontend, backend, Salesforce, and AEM teams to deliver integrated platform features.
- Contributed to frontend architecture improvements, including migration to Redux Toolkit + RTK Query, adoption of Vitest and Husky, and mentoring engineers on development best practices.

Team Lead – 5TechLab

- Led a cross-functional team of frontend, backend, and QA engineers in delivering a HIPAA-compliant healthcare platform integrating CGM data.
- Partnered with business stakeholders to define requirements, guide technical implementation, and manage delivery roadmaps.
- Designed AI-assisted workflows using OpenAI and GCP Speech-to-Text, while contributing across React, backend services, cloud infrastructure, and secure healthcare data architectures using AWS S3 and PostgreSQL encryption,

Frontend Developer – Infomedia

- Served as the primary Angular engineer, providing technical guidance and contributing to the migration from AngularJS to Angular 16.
- Developed dealership quoting applications and designed InfoPay, a reusable payment module adopted across multiple dealership workflows.
- Supported stakeholder demonstrations, technical discussions, and production issue resolution.

Angular Developer – Mylan (Pfizer)

- Developed Angular features for a master data platform, including authentication, ETL workflows, validations, and Azure-integrated file processing.
- Integrated Entra ID SSO, Azure Blob Storage, and Azure Functions as part of secure enterprise data workflows.
- Acted as a key client-facing technical contact during onboarding and UAT, supporting issue resolution and stakeholder sign-off.

Projects

- **Migaku Server -** Self-hosted cloud platform using Docker and Cloudflare Tunnel for secure service hosting and custom subdomain routing.
- **Sens.ai -** AI-assisted learning platform focused on project-based software engineering education and guided development workflows.

Skills

- **Languages -** TypeScript, JavaScript, Python, Go
- **Frontend -** React, Angular, Next.js, TailwindCSS, MUI, SolidJS, Svelte
- **Backend -** Node.js, Deno, PostgreSQL, MongoDB
- **Cloud & DevOps -** AWS, Azure, Docker, GitHub Actions, Jenkins
- **Architecture & Integration -** Microservices, REST APIs, Event-Driven Architecture, ETL Pipelines, System Design
- **AI & Data -** OpenAI, GCP Speech-to-Text
- **Enterprise Platforms -** IBM WebSphere Commerce (WCS), VTEX
- **Testing & Security -** Vitest, Jest, CodeQL, Dependabot, Husky

Education

- MCA – Kerala Technical University (2021)
- BCA – MG University (2019)
